Maxime HAEGEMAN

Lead Data / ML Engineer

README.md

Data & ML Engineer with 5+ years of experience architecting scalable data pipelines and ML systems. Currently serving as a Technical Referent at Ubisoft, leading migration operations and mentoring peers. Throughout my international venture, I have been able to develop my communication and teamwork skills as well as autonomy. Seeking a Lead Data/ML Engineering role in Copenhagen.

Work experience

Since
Mar. 2024

Data Engineer

Massive Entertainment, a Ubisoft Studio

Malmö,
Sweden

- Acting Technical referent for ML and Analytic ETLs: Define coding standards, conduct code reviews, and oversee architectural decisions for PySpark pipelines.
- Lead of a critical infrastructure migration from legacy tool to Azure Databricks.
- Setup of monitoring pipelines using Grafana.
- Designed and maintained a core internal python library.

Jan. 2023 -
Feb. 2024

Data / ML Engineer

MvH Media

Dongen,
Netherlands

- Python backend developer on internal tool.
- Designed Data Warehouse architectures on GCP for external clients, ensuring scalable data retrieval.
- Internal ML products developped: NLP on customer reviews, text-generative model for category and product descriptions.

Apr. 2022 -
Dec. 2022

Data Scientist

BNZSA

Madrid,
Spain

- Developed of an end-to-end data preprocessing pipeline from the CRM data.
- Deployed propensity models, reducing outbound call volume by 25%.
- Fine-tuned a country classification Transformer model from postal addresses.
- Research on ML pipeline that transcribes, translates, and NER of audio recordings for quality control.

Sept. 2020 -
Mar. 2022

Junior Data Scientist

BECQUET

Armentières,
France

- Customer and sales perf dashboarding from an SQL Server database.
- Customer scoring and segmentation, reducing marketing costs by 10%.
- Data analysis and visualization, identifying a new target market segment.

Education

Executive Masters in Deep Learning

2022 - MIOTI | Tech & Business School

Masters in Data Science

From 2020 to 2022 - OpenClassrooms

Bachelor of Science in General Engineering

From 2016 to 2019 - HEI

Technical Skills

Languages:

- Python
- SQL
- Bash

Cloud & Infrastructure:

- Azure (Databricks, AKV, Entra),
- GCP (BigQuery, VertexAI, Cloud Run)
- AWS (S3, EMR)
- Docker

Data Engineering:

- Apache Spark (PySpark),
- Airflow
- CI/CD Git
- Delta Lake

Machine Learning:

- TensorFlow,
- PyTorch
- HuggingFace
- SpaCy

Monitoring:

- Grafana
- Tableau
- PowerBI

Languages

- **Danish:** B1, actively learning
- **English:** Fluent
- **French:** Fluent
- **Spanish:** Fluent

Personal interests

Family

Young parent of a daughter

Sports

Tennis, Padel, Cycling, Disc golf
